

# Other Port Scanners

THREAT MANAGEMENT

# Angry IP Scanner

- Multiplatform (Windows, Linux, MacOS)
- Graphical port scanner
- Doesn't provide service or OS information by default
  - Must use "fetchers" to get more details
- Well-known, but not as full featured as nmap or Zenmap

## Other Port Scanners

- Many other port scanners exist
- Metasploit built-in scanners
- Qualys Vulnerability Management
- Tenable's Nessus Vulnerability Scanner
- You can even write your own in a language like Python!
