

# Common Vulnerabilities

VULNERABILITY MANAGEMENT

# Common Vulnerabilities

- Vulnerability scanners can detect 1000s of different types of vulnerabilities
- We are NOT going to cover each and every one of them individually...
- But, we will cover the different types

# Common Vulnerabilities

- Server and Host Vulnerabilities
- Network Vulnerabilities
- Virtualization Vulnerabilities
- Web Application Vulnerabilities
- Internet of Things (IoT) Vulnerabilities

# Common Vulnerabilities

# of CVEs exploited in 2015 by year of initial vulnerability discovery  
(Source: Verizon Data Breach Investigations Report 2016)
